

FROZEN CAPPUCCINO

MIXING INSTRUCTIONS

1. After ensuring that your mixing container is clean and completely empty, add .5 gallon of water. Half Gallon hashes are located on side of container.

2. Cut off approx. 1" from the corner of a bag of shake/smoothie mix.

3. Pour contents of mix into mixing container.

4. Tightly screw lid back on mixing container. Shake the mixing container thoroughly to properly mix all contents.

5. Remove lid from mixing container. Fill mixing container to 1.25 gallon with water - half way between 1 gallon and 1.5 gallon hash line.

6. Tightly screw lid back on mixing container. Shake the mixing container thoroughly to properly mix all contents. Pour contents into frozen drink machine. Do not overfill your machine. Your hopper/bowl should be marked with a MAX FILL line.
